To

[Margrethe Vestager | European Commission](#)

Please acknowledge receipt

For a public hearing on 28th November 2018 in a Spanish Civil Court we need to know as much as possible about Google Maps and conflicts of interest with other products. Please help us to find who can answer this 3 questions in European Commission

1. Does Google use an algorithm to detect maps on the Internet?

2. What are the purposes and structures of the information that Google obtains from the maps that are published or referenced on the Internet?

3. Does Google give different treatment to the maps of its own cartography compared to those of other entities such as the blocking of the one detailed in my plaintiff vs. Google in Spain?

For your information our demand is published at

<http://www.miguelgallardo.es/google-inadecuado.pdf>

and our last document concerning Google malpractices in digital cartography and maps discrimination at Madrid Court of Law

<http://www.miguelgallardo.es/google-discrimina-mapas.pdf>

We are extremely interested in any reference or investigation about Google MAPS concerning competition on Digital Cartography in Europe.

Please do not hesitate to forward this message to anyone you consider appropriate or call me by phone **(+34) 902998352** or by this email for details, but help us to find for contacting experts and European officials on Digital Cartography and Google Maps at European Commission **URGENTLY**.

Dr. (PhD) Eng. Miguel Gallardo
