

Paid censorship-silencing versus transparency for the PRESS at www.cita.es/legal-eraser.pdf

Since the first prehistoric human painting inside a cave was killed, censorship improved the business of silencing and obliterating information. Internet is the war-field of paid hackers and lawyers that sell any form of data deletion. Technologies are also offering silencing tricks, as well as attorneys with their complex litigations methods. Google also sells the possibility to advertise anything or even when data that might be erased from their records. Some companies are selling the possibility to eliminate all data right now.

In Spain, “[TeBorramos](#)” (“We-Delete-You”) is the trademark of the Limited Company “[Legal Eraser](#)” which is advertising in Google AdWords and AdSense. [TeBorramos](#) and [Legal Eraser](#) are trying to delete information relative to any Spanish Public Civil Servant indictments and judiciary sentences on corruption and bribery. They already erased the name of a guilty and indicted official, [Miguel Ángel Montero de Espinosa Solbes](#) in many journals like “La Vanguardia” or “La Voz de Asturias”, and also in some professional websites that informed about his criminal activities. Nowadays, [Miguel Ángel Montero de Espinosa Solbes](#) is the Chief of Inspection Officials at the Labour Ministry of the Balearic Islands and is a customer of [Legal Eraser](#) ¿paid? censorship services.

The attorneys of [Legal Eraser](#) sued Miguel Gallardo, webmaster of the two websites miguelgallardo.es and cita.es that informed about [Miguel Ángel Montero de Espinosa Solbes](#) corruption crimes. The scanned civil plaintiff, now at Gandía Court, was published at www.miguelgallardo.es/demanda-teborramos.pdf

Miguel Gallardo and [APEDANICA](#) decided to publish every relevant document concerning [Legal Eraser](#) or [TeBorramos](#). Journal of Galicia, xornaldegalicia.es and press agency actualidadiberica.com also published some news about this business of paid censorship.

More lawyers and managers of [Legal Eraser](#) also accused Miguel Gallardo of 7 serious crimes , and claimed to the Spanish Data Privacy Authority (Agencia Española de Protección de Datos AEPD) against him and [APEDANICA](#) in the document published at www.miguelgallardo.es/teborramos-mar-espana-marti-anexo.pdf

Spanish Public Prosecutors do not understand how serious is paid censorship of Court of Law information in relation to documents concerning the corruption of civil servants. That is the reason why journals or journalists are not publishing anything regarding [Miguel Ángel Montero de Espinosa Solbes](#) and it seems that [Legal Eraser](#) lawyers are developing a new paid censorship business with the help of some Spanish Public Prosecutors, and Google smart advertising that can be checked just by searching “[TeBorramos](#)”.

[APEDANICA](#) and Miguel Gallardo are investigating any international case of abuse of the European [right to be forgotten](#) against the universal [right to know](#) and [freedom of speech](#) in order to stop the “We-Delete-You” business against whoever is just offering trusted information of public interest about corruption and bribery in Spain, Europe and Latin America, so we shall appreciate accurate quoting and comments or publishing proposals on our URL links about [Legal Eraser](#) and [TeBorramos](#).
